

# The Heat-Shrink Tunnel™

Affordable, Shrink Banding Solutions for Tamper-Evident Packaging

- Stainless steel construction
- Flow-through ventilation
- Compact and reliable
- CR6000-ST: 3"w x 3.5"h
- CR6000-MED: 6"w x 3.5"h
- CR6000-LG 9"w x 2"h

Boost profits and eliminate costly manual labor with this compact addition. It shrinks PVC bands applied to a wide variety of bottle shapes and sizes.

The tunnel is totally enclosed with dual controls for greater flexibility. It utilizes two 3,000-watt CAL rods as the heat source. With flow-through ventilation, radiant head is used to shrink the band.

This compact unit (22" long) that eliminates the need for a lengthy conveyor. Installation is easily done by your in-house staff using standard tools. Comes complete with mounting brackets.
